GALLIPOLIS.

THURSDAY, MARCH 30, 1854.

CONGRESS.—In the House of Representatives on Tuesday, the 21st, Mr. Richardson moved that the House go into committee of the whole on the State of the Union, with the design of reaching the Nebraska bill, but it was lost; yeas 83, nays 108. House then proceeded to take up the business on the Speaker's table, and after disposing of several small bills, reached the Nebraska and Kansas bill, which was read amid much excitement. Mr. Richardson moved to refer it to the committee on Territories. Mr. Cutting moved to refer it to the committee of the whole, which was opposed by the friends of the bill, as an effort to bring it beneath the mass of business already before the committee. He called for the previous question on the motion to refer the bill to the committee of the whole. The call was sustained and the bill was referred to the committee of whole; yeas 110, nays 95. The opponents of the bill manifested great joy, and the friends of the measure great disappointment at this result; the bill was thus placed No. 50 on the calendar of the committee of the whole. A similar bill introduced into the House is No. 21 on the same calendar, and all other bills preceding these must be either laid aside, *seriatim*, or otherwise disposed of before either of the Nebraska bills can be reached, except a majority determines otherwise. Neither of the bills can be reached before the middle of the next session.

WE have been informed that by a recent arrangement of the County Commissioners with Mr. KELLY, the citizens of Gallia county will be permitted to cross on the Bridge over Racoon creek, at Adamsville, free of toll.

CHANGES.—There has been considerable change among our business men the past week. Mr. JOHN HEISNER has withdrawn from the firm of E. DELETON & Co., and Mr. ROBERT BLACK has entered in his place. This latter gentleman has disposed of his interest in the lower Paper Mill, and Mr. CYRUS D. GREENE has entered in the paper making business.

PACKET CINCINNATI.—This fine boat passed up Sunday evening with a very respectable freight. She has been thoroughly painted and refitted, and takes the place of the Crystal Palace. The officers appear to be remarkably accommodating to the travelling public. She will pass down to-day (Thursday) and up on Sunday next.

TOWNSHIP AND CORPORATION ELECTIONS.—An election for township and corporation officers will be held on Monday next. Corporation officers—one Mayor, one Recorder and five Trustees. Township officers—three Trustees, one Clerk, one Assessor and two Constables.

PEACH CROP.—Some fears are entertained in regard to the peach crop in this section, owing to the severe cold weather experienced the past week. We have no doubt the crop has been destroyed.

DOWN to the end of the second week in February, the export of wheat from all parts of the United States, according to the "United States Economist," since the first of August, 1853, was \$0,104,357 bushels. This, in round numbers, is four-fifths of the entire export for 1847, the year in which the largest export ever made took place. That is, during six months and a half of 1853 '54, we have exported four-fifths as much wheat as in the highest export year ever before known. If the export continues at the same ratio, it will reach nearly forty millions before the first of August next.

THE two Cunard steamships seized at New York during Mr. Fillmore's Administration for containing goods not in the manifest were fined \$15,000—one \$5,000 and the other \$10,000.

A party of Pittsburgh coal boatmen made an attempt to take the steamer S. F. J. Tribune, on her last trip from New Orleans, but met with a terrible defeat. The captain summoned his crew, principally Spaniards, and led them in person against the mutineers. They had a hard conflict but finally succeeded in arresting the ring-leaders and putting them ashore. Several persons were dangerously injured in the fight.

THERE is an exhibition in Cincinnati, a pig only eighteen months old, that weighs 1640 pounds.

MR. Van Pelt, of Fayette county, Ohio, raised one thousand and twenty-two bushels of potatoes on three acres of ground, last season.

OUT of fifty-nine Democratic papers in this State, thirty-nine are opposed to Douglas' Nebraska bill, and these thirty-nine are the most able and influential in the State. The harmonious Democracy are wonderfully split up on this question. In this county they go tooth-and-nail for the bill—even their organ semi-occasionally strikes for them, but as often gives them a kick back. It is rather a difficult matter to please the friends on both sides, particularly when the fellow himself is ignorant in regard to his own footing.

THE Democrats of Cincinnati held a large and enthusiastic anti-Nebraska meeting on Friday night last in that city. The Cincinnati Enquirer, the Douglas Nebraska organ of that city, is out against it and denounces its gettters up in no measured terms.

THE following gentlemen kindly furnished us Cincinnati papers last week: B. Veyssie, Wm. Nash, and W. H. Peeples.

MR. B. Veyssie has just returned from Cincinnati with the latest spring fashions for gentlemen's wear.

THE Packets of both lines have placed us under renewed obligations the past week for favors. Thanks.

IN the language of the poetic editor of the Jackson Standard, "we take pleasure in complimenting" *ourselves* in bringing about a regularity in the arrival of the Chillicothe mails at this place. Notwithstanding the very high wind the past two weeks, the machine has arrived within contract time—with one or two exceptions. We at present hold these Jackson colts with a check reign, and when that proves insufficient we shall put a halter round their necks.

OUR old friend Wm. HARRY PEPPLES stepped in upon us last week, looking remarkably well, and giving us cordial assurance of a man. He is perambulating the country in the capacity of Agent for the Messrs. COLLINS & ANDERSON, importers and dealers in Drugs and Chemicals, Paints, Oils, Dye-Stuffs, &c., Philadelphia, as also for Wm. M. Kohl & Co., Cincinnati.

HE is the best adapted for this business of any man we have ever met. Judging from the many complimentary notices in our exchanges, from different parts of the country, this is not the only place HARRY is a favorite.

WE acknowledge the receipt of a splendid "editorial knife" from our friend Wm. H. PEPPLES. In self-defence we have been compelled to accept this present, not that our person is in danger, but our "grey goose pen" has become blunt and our enemies have found it out. We hope it will not be the means of cutting HARRY's acquaintance.

OUR neighbors about the Headquarters, on Court street, have shown the light of their countenances by removing the sheds in front of their buildings, which is a decided improvement.

MESSRS. Castle & Cook advertise their improved Threshing Machines.

MISS E. M. MATHERS opens a school in the Lower School House, next Monday.

THE Directors of our Railroad call upon Stockholders through our columns, for one dollar on each share subscribed. Gentlemen, fork over.

THE Tax Bill.—The Tax Bill reported to the Ohio House of Representatives by the Finance Committee, is substantially the former bill, without change except in the following particulars:

1. It does away with the exemption of fifty dollars.
2. It repeals the tenth and eleventh sections of the law providing for deduction on moneys and credits.
3. Taxes leasehold interests as personal property, at their actual value in money.
4. Fixes a day certain, the fourth Monday of April, for listing all personal property except that of banks and bankers and other corporations, which are required to report on the first Monday of May, annually. The property that is reported to the assessor is fixed on the fourth Monday of April, and that returned to the County Auditor on the first Monday of May.
5. It does away with average estimates of property for taxation by merchants, bankers, manufacturers, &c.
6. It does away with valuation by the Assessor, and fixes the terms of the oath of the person listing property, with a view to making the same less objectionable to individuals who may be scrupulous in reference to swearing thereto.
7. It permits County Treasurers to visit the townships as required by the County Commissioners.

STRAHER McLEAN SUK.—We see it stated in the Southern papers that the McLean with a cargo of cotton, sunk near Grenada, Miss., on the 4th inst., by striking a snag, and will prove a total loss. The locality or river in which it occurred, is not given. Perhaps it was in the Yazoo.

THE trial of the Martha Washington conspirators at Helena, Ark., has been set for the fourth Monday in May.

THE BLACK WARRIOR AFFAIR.—The following is an editorial item from the New York Times:

We learn from a private source, entitled to full credit, that the Courts of Law at Havana have decided against the legality of the action of the authorities in confiscating the cargo of the Black Warrior. The ground taken is, that inasmuch as they concede to the captain of the ship the right of altering his manifest at any time before reaching port, they cannot deny him the privilege of correcting it within a reasonable time afterwards.

Raccoon Township.

At a meeting of the Board of Education of Raccoon township, held at Ridgeway's on the 11th inst., it was unanimously

Resolved, That this Board recommend the following books to be used in the schools in this township: Ray's Arithmetic, Mitchell's Geography, Pinneo's Grammar, McGuffey's Spelling Book and Readers.

A. W. WARNER,
Clerk of Board.

March 22, 1854.
All of the above books can be found at H. H. Neal's Book Store.

ACCORDING to adjournment, the Convention for the organization of a Teachers' Association will meet on Saturday, the 8th of April, at 10 o'clock A. M., in the court house in Gallipolis. It is hoped there will be a large attendance of Teachers, of both sexes, from all parts of the county and from adjoining counties. Nor do we expect to be neglected by the friends of education, who are not immediately engaged in teaching. Come in, ladies and gentlemen, and lend us your counsel, though you should withhold your names from the constitution of the Association.

A. W. WARNER, Pres't.
JOHN C. VANDEN, Sec'y.

NEW HAMPSHIRE ELECTION.—The Boston Atlas of Tuesday week, says:

The Locos of New Hampshire die hard, but die they must; the irrevocable edict has gone forth from the PEOPLE. They have lost New Hampshire. Although the Custom House bled freely for the cause, it could not save the doomed advocates of Nebraska. Not even the false figuring of the *Patriot* can now reverse the decree or alter the stern figures. In all but five small towns, these stand:

Opposition 157
Administration 148

ON the bill introduced to the Ohio Senate, by Mr. Falsett of Licking, which forbids the circulation of notes of foreign banks under ten dollars, in Ohio, and which passed on Friday by a vote of 18 to 10, every democratic member but two voted yea.

HON. A. LOGUE will accept our thanks for a copy of the Treasurer's report, and a copy of the State Democrat, containing the proceedings of the Anti-Nebraska Convention.

BAYARD Taylor is at present lecturing in Pittsburgh. He is to give a course of lectures at Cincinnati next week.

THE St. Louis Intelligencer mentions that twelve passenger cars, very large and of the best style, for the Ohio and Mississippi Railroad are awaiting shipment at Alton. The Intelligencer says: "As the track of the Ohio road is laid beyond Lebanon, we presume that the regular trains will be run upon it as soon as these cars arrive."

THREE times in the present century has wheat reached the high figure of two dollars a bushel in the valley of Genesee. In 1816, by reason of a remarkably cold summer and a very short crop—in 1839, by a somewhat unpropitious season and neglect of agriculture for purposes of trade and speculation, compelling the large importation of breadstuffs from Europe—and in 1854 by reason of short crops in Western and Central Europe, and the war between Russia and Turkey.

BALTIMORE, March 22.
A fearful accident occurred yesterday on the Mountain track of the Virginia Central Railroad. A car containing forty passengers broke loose and descended at a rapid rate and came in collision with an engine, and was smashed to pieces. Strange to say, only one man was seriously injured, the others sustaining but light bruises.

ACCIDENT TO THE J. G. CLINE.—We learn that the Union Line packet, J. G. Cline, blew out both cylinder heads, and broke one of her shafts a few miles above Cincinnati, yesterday morning. She will come down to-day, on one wheel, and after discharging her cargo here, will return to Madison to be hauled out on the Marine Railroad for repairs.

LOU. COURIER.
Young, the man arrested in Pittsburgh to answer to the charge of assaulting Collector Hastings and robbing the Custom House, has been fully committed to answer the charge at the next criminal court.

MR. Hastings, in his affidavit, states that on being confronted with Young, he appeared to be about the size and looked something like one of his assailants; Mr. H. did not assert in positive terms that Young was the man who had assaulted him. The toll collector at the dock, Mr. Splane, states that a man whom he believed to be Young, crossed the aqueduct on Thursday evening, the 10th inst., (the night of the robbery), accompanied by two others. They arrived about seven o'clock. This and the suspicions of the police officers, together with Young's bad character and associates, is about all the evidence against him.

RALSTON'S PATENT IMPROVED

Threshing Machines.

THE subscribers have under construction a number of the above Machines, and are prepared to fill all orders. The advantages this Machine has over all others yet introduced are:

- 1st. It will thresh more grain in a given length of time with less power.
- 2d. The simple construction and durability make a very important item to inexperienced hands.
- 3d. In the Chaffing Riddle, it being made of perforated sheet iron, so there is no possibility of choking in damp grain.
- 4th. In elevating the grain, after being separated and screened, it is carried by elevators to a top shoe, and the second operation of fanning, and discharging the white caps, &c., back to the cylinder.
- 5th. In the open straw carrier so there is no waste.
- 6th. The advantage of attaching the tumbling shaft in three different places, on either side or end.

Also common Machines made to order. Particular pains taken to select the best materials.
Castings constantly on hand. Repairing done at short notice.
